

## THE NEW MOMBO

December 2017 – The rebuild of Wilderness Safaris’ flagship camps in the heart of the Okavango Delta, Mombo and Little Mombo, continues apace, with both camps set to open for guests at the end of January 2018. Whilst comprising the most appropriate and sustainable luxury required of such a leading destination, the new camps will remain rooted in an authentic bush-camp offering to ensure that the original Mombo experience is retained.
